25X1

1. Budapest-Hatvan Railroad Line

a. Pylons for carrying electric high-tension wires are being erected along the Budapest-Hatvan railroad line. 25X1

b. This work is progressing very slowly because there is a great shortage of copper wire.

2. Budapest-Záhony Railroad Line

a. It is planned to double-track the whole Budapest-Záhony (USSR border) railroad line.

b. Work is progressing very slowly because there is a great shortage of rails.

c. This work is considered unnecessary by experts of the Hungarian State Railroads as the single line can comfortably handle the amount of traffic passing over it. The line is at present working well below planned capacity.
